

NEW RELEASE: *ROH Flow-forged RF5*

New to the exclusive range of ROH Lightweight Performance[®] Street Wheels, all new Flow Forged RF5 in matt black finish and gloss black machined lip is available in 18" as well as staggered 19" and 20" fitments.

The RF5 presents beautifully with a simple yet striking concave 5 spoke design.

Flow-forging is the most advanced technology in use today by just a handful of specialist wheel manufacturers around the world. The process begins with a unique cast pre-formed wheel that is then flow-forged after casting to produce high-strength lightweight aluminium road wheels for both street and off-road applications.

Compared to conventional as-cast wheels, ROH Flow Forged wheels are comparable to more expensive forged aluminium wheels yet retaining the ultimate styling flexibility afforded by traditional die-casting.

RF5 utilises this advanced technology to fit most popular Australian and imported performance cars.

ROH RF5 is in stock now - so contact our sales staff today for fitments and pricing.
